<u>In the specification:</u>

Paragraph beginning at page 2, line 16 has been amended as follows:

Heuristic resampling of the audio playback data block may be performed. When heuristic resampling is performed, multiple consecutive samples of audio data in an audio buffer may be analyzed, consecutive samples with minimal variation in a parameter of their data may be identified, and the number of samples in the identified consecutive samples may be adjusted. A sample may be removed from or added to the identified consecutive samples. [the values of the auto correlation function coefficients and the predetermined values.]
